- Campground
- Campground (Summer Only)
- Primitive campground (no potable water)
- Primitive campground (Summer Only)
- Boat launch
- Paved road
- Unpaved road
- Wilderness camp (permits limited)
- Wilderness camp
- Trail
- Primitive trail (May be difficult to follow in places)
- Pass
- Trail distance (16.5mi)
- Impassable headland; ALWAYS use overland trail
- Point may require low tide to pass. Wait for low tide or use overland trail if available. See topographic map for tide levels necessary to round headlands and overland trail locations.

Wilderness

Congress has designated nearly one million acres on the Olympic Peninsula for protection under the 1964 Wilderness Act. This includes 95 percent of Olympic National Park, five areas within Olympic National Forest and more than 600 islands in National Wildlife Refuges.

Wilderness is meant to protect forever the land's natural conditions, opportunities for solitude and primitive recreation and scientific, educational and historical values. In wilderness people can sense being a part of the whole community of life on Earth. Preserving wilderness shows restraint and humility generations that will follow us. For information about your wilderness areas, visit www.wilderness.net.

Need More Info?

Call, write or visit the WIC as you begin planning. Staff can provide current trail reports, trip planning assistance, safety information, weather forecasts, wilderness protection tips and permits. For current trail conditions check the park's web site, www.nps.gov/olym.
